INSTRUCTIONS. for 2274-30

ROAD MAP---There are five counties shown on this map--three in North Carolina and two in South Carolina--The N.C. Counties are Cleveland, Gaston and Mecklenburg. The S.C. counties are York and Cherokee. Beginning opposite the pencil mark on the left is the State line running to the pencil mark on the right. Want this dotted or spaced STATE LINE very distinct. Note the words Kings Mountain just above the words Battle Ground. The "Kings Mountain" arrow points to the town of that name in North Carolina. The "Battle Ground" arrow points to the battleground which is in York county. Want this point brought out distinctly, perhaps best by adding the words "Kings Mountain" under the words "Battle Ground." Cherokee and Mecklenburg counties can be made in a single color; York, Cleveland and Gaston counties in three different colors. Please bring out Highways marked with figures 20, 205, 29, 1, 16, etc., distinctly. Under the map this line:

Highways leading to Kings Mountain Battleground, York County, S.C.

Indicate by letters S.C. and N.C. that the counties of York and Cherokee are in SOUT CAROLINA and the counties of MECKLENBURG, GASTER and CLEVELAND are in NORTH CAROLINA. Light lettering spelling the names of the two States across the indicated counties would be O.K.

INSTRUCTIONS.

We have indicated at the margins, with arrows pointing to the buildings, what we wish cut off. You had better use your own judgment as to cutting off the top and bottom of this photo, so as to bring it to the best postcard proportions..

In the immediate foreground is a traffic signal, white with a red cap on it. The sign, of W.A. Land, Inc. Insurance, is white on an olive green background.

This new structure, which faces to right and left of the bank in the foreground on the corner, is constructed out of tan colored brick, and window facings and vertical strips are white stone. The first two floors, as well as the top floor, are white stone.

In regard to the names of the two Companies, they are to appear in black on an ivory background, enclosed in a black border.

The building that occupies the corner in this photo in the foreground, is the Bank, and should be reproduced in about the same color as shown by the photo.

INSTRUCTIONS

When retouching photograph remove the telephone pole, wires, add leaves on trees, take out woman and cut out end building as marked in ink on the photo. This subject is going to appear on post card similar to the Catalina Island Menu and try to bring out the building prominently. Watch your proportioning. Retouched photograph to be submitted to customer.

Also tell the layout man to make an ink sketch of the menu which is to appear on the post card. The white space for the menu will appear the same as the Hotel St. Catherine menu but add the words "The Spa M-e-n-u" in place of wording "Hotel St. Catherine". Also change the illustrations along the border to something appropriate for advertising The Spa which is really a health resort for sick people. The agent suggests that we could have a spring show up somewhere around the border, but work out your own idea. We want a good job. This ink sketch is to be submitted to customer with the retouched photo.

Mr. Beuttner: For coloring of post card on top of menu, follow colors as given on post card enclosed in envelope, but in coloring illustrations at bottom part use your own idea.

Yours very truly,

ADVERTISING DEPARTMENT.

The dining room has all bright colors.

The curtains at the window and the chair covers are the same. Bright green and white checks. The woodwork is all green. The walls and ceiling are green and red sponged modernistic designs. The lamps on the tables are alternately green and red. (One table lamp red, the nest one green). The carpet will be most difficult to explain. The colors are green, red, and yellow. Green predominated, however. You will be able to work a nice coloring in these cards, I am sure.

There is a dash of paint put on the walls, then sponged, to give a blurred effect. It is all futuristic.

The size of this business card is to be 3 1/2" x 2", but the building does not seem to be in the right proportions to look attractive on a 3 1/2" x 2" business card, therefore, it will be necessary for you, Mr. Sladek, to retouch the photograph, then put a cardboard frame around it, indicating proportions of how photograph will look when trimming off building right after the edge of brick sign appears about 15 feet from front, and then have layout man make two pencil sketches of the business card, business card size, indicating how the card would look proportionately by having the front cut off and then by showing the whole building.

INSTRUCTIONS

The base of the building is Minnesota pink Granite of a dark gray color; the architrave to the bank entrance is also of the same granite, including the stone inscribed "First National Bank." Bedford stone is used on all trim and up to the first office floor. The balance of the bldg. proper is buff brick.

The marquise and window frames are finished in mottled oxidized copper; the spandrel panels between the first story and mezzanine floor windows are ornamental copper.

The night depository like the enclosed picture appears on the lower stone of the front pilaster on the corner and we would like to have this shown if possible.

INSTRUCTIONS

"The main entrance is natural cut grey limestone and the top of the building is green. The Mausoleum is white marble, the dome is copper. The building over in the left is the same as the entrance, grey stone with green roof. Now the street car is a brick red. The automobile in front of the entrance is wine colored with color trimmings. The larger automobile up near the street car is dark blue. The walks, of course, are concrete. The roof of the Mausoleum is green, the same as the roofs in other buildings. The landscaping, of course, making natural colors. Would like for you to make a slight change in what appears to be a woodland in the back, making it a little more irregular; however, at no additional cost.
